At ICS, we pride ourselves in our unique ability to integrate comprehensive strategy and cutting edge security into information operations. Learn more at www.ICSInc.com.

Technology Consulting

Network Operations

ICS has experience operating and defending networks of a global scale. We currently manage a global network infrastructure supporting 16 global datacenters and millions of connected users. Managed environments include both classified and unclassified production, administrative, backup, and management networks as well as the Demilitarized Zones (DMZ). Our managed network hosts over 1400 applications, 55 of which are mission critical. Customers include Air Force, Army, Navy, Marines, Defense Logistics, Defense Finance, Medical Health Systems and others.

Our team members have broad and deep experience with cutting edge network technology including routers, firewalls, switches, load balancers, AAA devices, XML accelerators, Domain Name Services (DNS), email security devices and proxy servers.
