Legacy Modernization

Legacy modernization can be a very costly and time intensive process, but it doesn't have to be. ICS offers software automated solutions that can significantly reduce both the time and budget needed to achieve the results you expect.

ICS uses a technology suite to simplify modernization efforts in systems containing multiple applications and multiple languages, even when they are connected to multiple databases. Our turnkey modernization solution means your team doesn't have to be bogged down for months updating business systems. We support the following legacy languages:

- Powerbuilder
- MAPPER
- Cold Fusion
- Oracle Forms
- MUMPS
- Perl
- Oracle PL/SQL
