Staff Augmentation

ICS can supply your organization with the flexibility and expertise necessary to meet even the most complex project and business goals. Our information technology and security consultants offer practical and affordable staff augmentation for both long and short term assignments.

By providing specialized technical staff support and staff augmentation to meet changing business demands, ICS offers your organization the best of both worlds: dedicated support and flexible cost control. Using dedicated resources from ICS to achieve defined objectives, in a sustained manner provides the momentum necessary to accomplish and maintain important strategic goals.

You organization is always in control of the scope, timing, and cost of each project. This gives you more flexibility in the timing of expenditures, resource availability, and balancing competing internal priorities.

Among the many benefits of this support model are:

- Surge capacity for projects
- Consistent focus on strategic initiatives
- Flexible budgetary control
- Adaptability to changes in priorities
- Clear project plan and delivery milestones
- Access to the virtual team of ICS consultants

ICS can lift the burdens associated with the recruiting and hiring process, and provide your organization with staff support with qualified candidates of the highest professional caliber. This will allow you the flexibility to take on complex assignments that may not have been feasible with existing organizational resources.
