# Systems Engineering, Technology, & Innovation (SETI) Small Business Prime

RTEJV.COM

SETI is a multiple-award, Indefinite Delivery / Indefinitely Quantity (ID/IQ) contract for the Department of Defense. It is based on innovation as a priority to solve the complex IT engineering and developmental requirements for DISA and its mission partners. SETI will consolidate and streamline critical engineering expertise to research, design, develop, implement, integrate, and optimize DOD IT capabilities, systems, and solutions.

## Key Facts

- \$7.5B ID/IQ Contract Ceiling across all awards
- Five-year base, with one five-year option period
- 15 Large Business Awards
- 25 Small Business Awards
- 8 Primary Task Areas with 57 Subtasks focused on innovative and cutting-edge technology solutions for DoD's current and emerging IT needs

## Key Benefits

### FAST ACQUISITIONS

Stakeholders will have new mechanisms to foster innovations, solve complex IT problems, utilize innovative procurement strategies, and get on contract faster and more efficiently.

### INNOVATIVE PROCUREMENT METHODS

To facilitate innovation, the SETI Program will encourage the use of competitions, Oral Presentations, Milestone-based competitions, and SOO instead of PWS for task order competitions.

### INCREASED PROTEST THRESHOLD

Protests not permitted for any Task Order valued under \$25M (FAR 16.505).

### FLEXIBILITY

All contract-types are available on SETI. Contract types can be used individually or in combination within a single Task Order.

## Why Red Team Engineering?

RTE is a joint venture (JV) comprised of Integrated Computer Solutions, Inc. (ICS) - the Managing Venturer; InnovationLabs; SPEC Innovations; and Heptagon. RTE members are innovation leaders and have been DISA partners since 1997. We have Exceptional past performance as prime contractors supporting large, complex, and mission-critical programs. As a high-value provider, we have excellent rates on the SETI contract. This means you can win profitable business! The RTE JV is structured to allow teammates to maintain maximum workshare for work brought to the vehicle, and our mature, efficient proposal team is easy to work with. We know how to win! You will gain the benefit of a collaborative team culture to help you compete and win SETI task orders.
